## THE SILVER SCREEN.

CENTRAL THEATRE.

"THE BIG POND."

Claudette Colbert speaks perfect Parisian French without a trace of English accent. Maurice Chevalier, Parisian of Parisians, is the authority for this statement. And Claudette Colbert speaks English without a trace of French accent, as millions of stage and screen theatre patrons who have seen and heard her will admit.

The explanation of this unusual bilingualism is that Miss Colbert was born in France and lived there until she was in her early teens. Then she came to America with her parents and attended schools there until she made her stage debut a few years ago. In the intervening years she mastered English without acquiring any suggestion of French accent.

Her complete mastery of the two languages provided her with the unusual opportunity of playing the leading feminine rôle opposite Chevalier in both the American and French talking versions of "The Big Pond," in which "the big happiness man from Paris" is starring at the Central Theatre during the holidays and will be shown for the last time to-day.

"TRUE TO THE NAVY."

Clara Bow has two surprises for her friends in "True to the Navy." Her "flapper" bob is gone. The "Red Head" has let her hair grow, and blow. At shoulder-length, it floats free, unhampered. And Clara sings in "True to the Navy," the Central Theatre feature for to-morrow, a real Bow song, "There is Only One Who Matters to Me," which was written for her.

Enough sailors to man a small-sized battleship were assembled at the Paramount studio in Hollywood for the filming of Clara Bow's new romance, "True to the Navy." Fredric March, seen opposite Miss Bow in "The Wild Party," heads the list. Several scenes of life on board a United States sea-fighter are high-lights of the picture. Harry Green is featured in the supporting cast.

"KING OF JAZZ."

A swift melodic panorama of a sure fire hit song is the "Happy Feet" number in Universal's spectacular extravaganza, "King of Jazz," starring Paul Whiteman, and coming to the Central Theatre soon. There are eight big numbers in this extravaganza which was directed by John Murray Anderson, famed creator of New York musical shows.

Paul Whiteman and his orchestra, the famous Russell Market Dancers, the Rhythm Boys, The Sisters G., Al Norman, eccentric dancer, and Charles Irwin, master of ceremonies are in this number which has as its song hit, "I've Got Those Happy Feet," scored by Ferde Grofe, the musical genius who originally scored George Gershwin's "Rhapsody in Blue" and who scored the music not only for the "Happy Feet" number but for the entire "King of Jazz."

QUEEN'S THEATRE.

"THE GOLDEN CALF."

A hilarious audience greeted the premier showing of "The Golden Calf," Fox Movietone comedy with music at the "Queen's Theatre" last night.

This latest product of the Fox Studios is crammed with comedy, romance, music and personality and bids fair to be one of the most popular films ever shown here.

An all-star cast includes Sue Carol, Jack Mulhall, El Brendel, Marion White, Richard Keene and Paul Page and all acquit themselves with honours.

Most interest, of course, centres in Miss Carol and Mulhall, who have the leading rôles, but Brendel, Miss White, Keene and Page run the stars a close race for honours.

The music, unusually melodious, was composed by Harry Green. Gotta Be Modernistic" and "Can I Help It If I'm In Love With You."

"The Golden Calf" was directed by Millard Webb.

## LESSON SERMON.

FIRST CHURCH OF CHRIST,  
SCIENTIST, HONG KONG

"Mind" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, February 22.

The Golden Text was:—"The earth shall be full of the knowledge

of the Lord, as the waters cover the sea." (Isaiah 11, 9).

Among the citations which comprised the Lesson-Sermon was the following from the Bible:—"Give unto the Lord the glory due unto the Lord; worship the Lord in the beauty of holiness. The Lord will give strength unto his people; the Lord will bless his people with peace." (Psalm 29: 2, 11).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy:—"God is Mind, and God is infinite; hence all is Mind. On this statement rests the Science of being, and the Principle of this Science is divine, demonstrating harmony and immortality." (p. 491).

It's fashionable  
to be economical now!

It is fashionable now-a-days to treat your travel budget with the same care you give your household expenses. Which means, of course, you insist on cabin comfort, good decks, and wholesome food, but are willing to do without a menu that needs an interpreter or an orchestra of college professors. Comfort without ostentation!

Steady, sturdy, and dependable.

## CHINESE DROWNED AT CHEUNG WAN.

VILLAGERS' CHASE ENDS IN TRAGEDY.

A Chinese stranger, believed to be a refugee, and stated to be about 25 years old, met with an untimely end when he visited Cheung Wan village on Saturday afternoon. The object of his visit is not known, but it is surmised that he was there for an unlawful purpose.

The man was discovered in a haystack and immediately a hue and cry was raised by the villagers. Pursued by the village-folk, he fled in a panic straight to the sea with the hope of escaping from the villagers by swimming to the opposite shore. However, he failed to cross the channel and was seen to disappear in deep water.

A report was made at the Cheung Wan Police Station. Since then launches have been patrolling the vicinity, but up a late hour last night the body of the man had not been recovered.

## "ART AND MRS. BOTTLE."

A.D.C.'S NEXT PRODUCTION.

From recent announcements and current gossip, it is very pleasing to learn that the Hong Kong Amateur Dramatic Club is not resting on the laurels gained by their excellent production of that highly amusing naval farce, "The Middle Watch," but intends shortly to provide the play-going public with a further exhibition of its well established talents.

While broad farce can seldom fail in its general appeal to local audiences, one would not like to think that their taste in plays was confined solely to this class of entertainment, and it is, therefore, still more pleasing to learn that a slight departure is being made and that in "Art and Mrs. Bottle" the players will have scope for character study as well as for the display of dramatic power. Both of these branches are embraced in the play in question; the whole being combined with numerous situations and sparkling dialogue.

The play is the work of Benn W. Levy, from whose pen we have had "This Woman Business," "Mud and Treacle," etc., etc., but who, until now, was perhaps best known for his dramatizations of Hugh Walpole's "A Man with Red Hair" and Marcel Pagnol's "Topaz."

In "Art and Mrs. Bottle" the author has retained, and even emphasized, much of the forceful brilliance displayed in the above works and we have yet a further example of the amazing sense of humour with which he can treat domestic tragedy when calling a spade a spade.

The story is undoubtedly a fragile one, but under Mr. Levy's magic wand it becomes the lightest of light comedies and is well calculated to please the after-dinner mood. Careful treatment is called for in the acting and in the selection of the cast much study has been given to the known or potential ability of the players.

The first performance will be given at the Theatre Royal on Saturday, March 7, and the play will be repeated on the nights of 10th, 12th and 14th, with the probability of a matinee on Wednesday, March 11. Booking will be at Anderson's.

## RACING NOTES AND TRAINING TIMES

DIANA BAY SHOWS A CHAMPION'S FORM: CANTERS HOME IN 27.3 SECONDS.

### WOODLAND STAG SPEEDS OVER THE MILE.

(By "MORNING DEW.")

Details of the training gallops on Saturday will be found below, from which it will be seen that Diana Bay is in fine fettle at the moment and bids fair to win the Champions. The pony was taken over a mile and a half, and though he started slowly, finished up very well. The last mile was done in 2.03.3 and the last half mile 57.3 seconds the last quarter being 27.3 seconds. The pony finished up still fresh and unless some entirely unforeseen circumstances should arise, there seems to be no doubt that Diana Bay will walk away with the Champions. Incidentally his two rivals will be Apollo and Hetman. The former, while a thoroughly good pony in every way, is no match for Diana Bay in her present condition. Hetman was galloped yesterday and though he ran very well, I do not think he has any chance whatever against Diana Bay.

Fortune Bay and Champagne Bay, two of Mr. Dunbar's Derby candidates, were responsible for some fast work on the course. Mr. Head took out Sam Houston over a mile and a half but no fast work was done.

Woodland Stag, one of the Australian ponies, went over a fast mile, taking 2.04.3 for the journey. The various quarters were covered in 34, 32, 30.3 and 28 seconds, respectively, which is pretty good going indeed.

Mr. "Billy" Hill arrived last week as did Mr. T. Y. Yung. The former will be riding for Mr. Dunbar and the latter for a Chinese stable. Messrs. T. L. Wong and H. C. Pih are due to arrive in Hong Kong to-day.

## Conquer "Nerves"

(Irritability, listlessness, stomach trouble.)

Nerve weakness causes bad transmission of the nerve impulses and may result in the irregular functioning of almost every organ of the body. Irritable nerves, digestive troubles, stomach pains, sleeplessness—all these different complaints are due to one and the same cause: "Nerve Weakness," and can only be conquered by strengthening and feeding up the very nerves of the body.

With Sanatogen, which is a nerve food, you go to the very core of the complaint, you strengthen the nerve fibres, revitalize the nerve cells, you put new strength and health into nerves which now play such tricks on you.

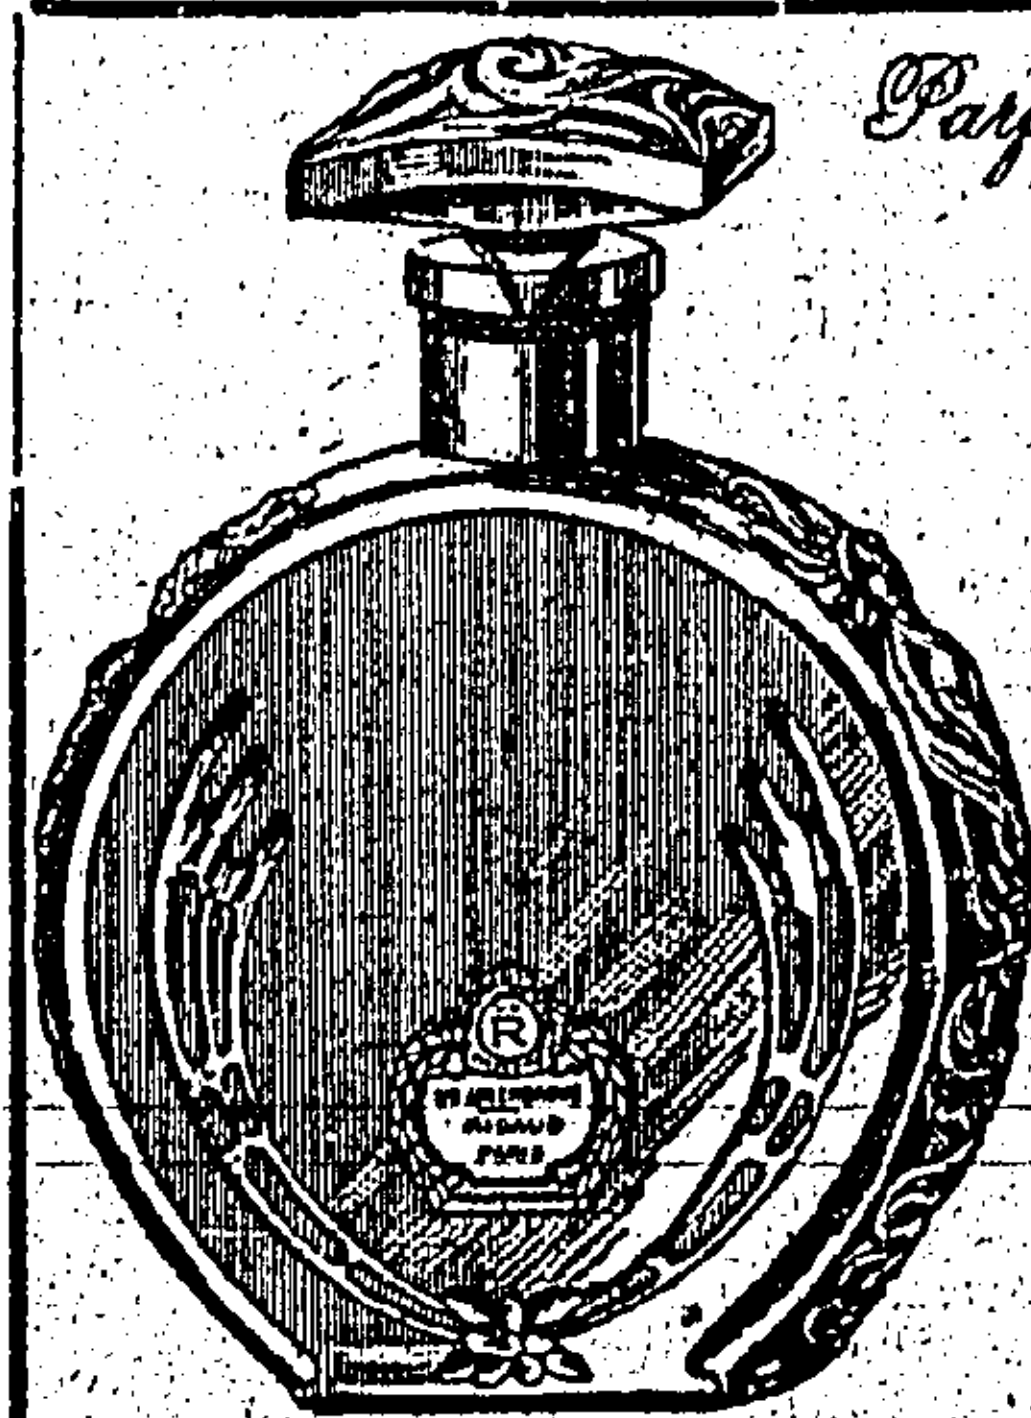

"It is years since I felt so well and happy. I was full of pain and depression through indigestion and nervousness, but now through Sanatogen, the world and all that is in it is brighter and more cheerful," so wrote a lady-user who had taken Sanatogen for six weeks.

Start taking Sanatogen now and for you too the world will soon become a better and brighter place. You will feel healthy and strong again. Red cheeks and a healthy appetite will show you what Sanatogen has done for you.

## KWANGSI PEACE RESTORATION.

## GRADUAL WITHDRAWAL OF CANTON FORCES.

[FROM OUR OWN CORRESPONDENT.]

CANTON, Feb. 22.—With the restoration of peace in Kwangsi assuming concrete form, the Canton Higher Command is gradually withdrawing its troops back to Canton.

A big detachment belonging to the 3rd Division arrived in Canton yesterday and is now quartered in the military barracks in Yentong in the north-eastern outskirts of the city. Another detachment is expected to arrive in the city to-day.

Most of the Cantonese troops stationed in various parts of Kwangsi are breaking up camp and withdrawing to Wuchow preparatory to returning to Kwangtung in accordance with the orders of General Chen Tsai Tong, their Commander-in-Chief. Large numbers of junks, steam launches and other water craft are being commandeered in Wuchow for the transportation of these troops to Canton.

The troops, after a rest in Canton, will be dispatched to the North River districts and the northern border of Kwangtung to fight against the Red menace there. Communists, bandits and other disorderly elements have been ravaging these places for the past several years, inflicting untold sufferings on innocent people. The authorities have long desired to suppress this menace, but on account of the war in Kwangsi nothing could be done. Now that peace is once more established, the Canton Government is able to carry out its long-cherished bandit-suppression campaign.

The Cantonese gunboats in Kwangsi are also withdrawing to Canton, according to the order of Admiral Chen Chak. The Admiral is leaving Canton for Wuchow to-day to supervise over the withdrawal of his squadron and to assist in the transportation of the troops of the 8th Military Route. He said in an interview with the local Pressmen that in all probability a part of his squadron would have to remain in Kwangsi for some time, even after the establishment of peace, as the province has no gunboats of its own to patrol the rivers.

Canton is preparing to stage a big popular gathering to welcome the triumphant return of its soldiers from Kwangsi. In all probability this mass welcome demonstration will take place on the East Parade Ground, but as yet no date has been fixed for the celebration.

The exact terms of peace agreed upon at Nanking between the Kwangsi party under General Wong Shi Hung and the Central Government have not been divulged. General Wong Shi Hung, the newly-appointed Commissioner of Kwangsi and the central figure in the peace movement for Kwangsi, who arrived in Hong Kong from Nanking yesterday, is expected to be in Canton shortly. The new Kwangsi ruler is reported to be quite optimistic over the situation and will make known his negotiations with Nanking in the course of the next day or two.

## CANTON RIDE.

## POSTPONEMENT FOR A WEEK.

[FROM OUR OWN CORRESPONDENT.]

CANTON, Feb. 22.

Owing to the inclement weather coupled with certain arrangements not being complete, the Canton Riding Association has postponed its ride to next Sunday, March 1.

The ride, of which much publicity has been given both on the streets and in the Press in Canton, was scheduled to take place on the newly-constructed racetrack in Shekpei, in the eastern suburb of the city.

The chief promoters of the riding ride, General Chen Ming Shu, General Au Yang Kui, General Chen Hing Wan and Admiral Chan Chak, hope to draw a record crowd to Shekpei on this occasion.

## PSYCHOLOGY AND RELIGION.

## HOW NEW SCIENCE BEARS OUT CHRISTIAN CLAIMS.

## REV. ARMSTRONG'S ADDRESS AT THE CATHEDRAL.

For the first of the special addresses at St. John's Cathedral, on Sunday evenings during Lent, the speaker was the Rev. E. A. Armstrong, his subject being "Psychology and the Validity of Christian Experience."

Psychology, said the speaker, had made a great contribution to religion. The idea that psychology had undermined and explained away religion was entirely untrue.

Psychologists of a certain school had attempted to adjudicate upon religion, and to say that God was a "subjective idea," created by man, just as man had created his physical organs in the struggle to adapt himself to his surroundings. But, as the best psychologists recognized, the functions of the scientists, were to examine the working of the mind, and not to try and deduce whether God were a reality or only a creation of man's mind.

Men believed in God, because they had experience of Him. The Church created conditions in which religious experience came easily but the root basis of religion was personal experience. Men had religious experience in the presence of the mysteries and beauty of nature, as well as in the revelations that were accorded to saints and mystics.

Religious experience was normal. Much had been said of the brutality of primitive men, but the tombs of the stone age showed that man had then religious beliefs and experience of God. God was not a creation of priests, but of men's own minds, and it was difficult to believe that an instinct, found in all men, of all times, was entirely based on illusion. Anthropologists now agreed that the presence of the religious sense was normal and its absence abnormal and eccentric.

If one accepted the idea that religion—i.e., the reality of God were an illusion, then truth and beauty and goodness were also illusions of the mind and founded on shifting ideas of men and not on the Will of God.

Another phenomenon of religious experience was its permanence. Effects produced by auto-suggestion generally faded quickly, but religious sense tended to grow stronger and stronger, as Christ emphasized in his parables of "the Kingdom of God."

With regard to prayer, sceptics tried to show that it was all auto-suggestion. Certainly it was partly auto-suggestion. That was the manner in which God worked, but besides auto-suggestion there was the help given by contact with the mind of God. There was telepathy between God and the supplicant. In conclusion, the preacher pointed out that psychology was demonstrating the truth and finality of Christ's teaching—which was entirely sound psychology.

## THE DISCUSSION.

## IS PRAYER AUTO-SUGGESTION?

The Dean opened the discussion by saying that to nearly every one there came times when one doubted if one's prayers were being heard. Is prayer efficacious of itself from the point of view of auto-suggestion was the first question asked. Mr. Armstrong replied that a belief in God—that the Heart of the Universe was with one, was to his mind necessary for any successful auto-suggestion, and he added in answer to a further question that, if people believed that prayer was only auto-suggestion they would first leave off prayer and then auto-suggestion. On the other hand, for people who brooded on an idea that everything was against them that form of auto-suggestion started by themselves.

Every way I am getting better and better," was doubtless useful though prayer, which would give real conviction, was better. The Dean here (Continued on next Column.)

quoted a variant to Ovid. "Hour by hour, by thy power, etc," which, he said, was more powerful because one knew it was true.

## What is Religious Experience?

The next issue to be raised was: What is meant by the term religious experience? Mr. Armstrong said that it was difficult to define. Many of the most highly gifted people spiritually had had an experience which was called "The Dark Night of the soul" and even experienced fluctuations in their spiritual feelings. Religious experience might be defined as any experience which called up a feeling of reverence, any awesome experience; anything which made one feel there must be some Power behind the universe. Unfortunately, psychologists had concentrated on the more intense religious experience called "conversion," but any feeling such as that of wonderment and awe, with which one sometimes regards the stars or a sunset could also be classed as religious experience. In answer to a further question, he said that he thought the fear of the weird might also be called a primitive form of religious experience. It was not an experience of God, but of one might say the matrix from which religious experience had been created.

## As Little Children.

The Rev. H. V. Koop opened an interesting field of discussion when he said that when the preacher had said that the desire for God, which is manifest in children, was one of the proofs of the truth of religion, he had thought of Christ's words, "Unless you become as little children you can in no wise enter into the Kingdom of God." Did that mean that self-analysis and analysis of one's religious experience and beliefs was wrong since the child mind accepted God simply and naturally without asking questions?

Next Sunday the subject for discussion will be "Are Betting and Gambling Christian?" The subject being opened by the Rev. H. V. Koop.

## POPSY AND HIGH FINANCE.

[TO THE EDITOR OF THE "HONG KONG DAILY PRESS."]

MY DEAR EDITOR,—Tubby says I'm too hopelessly wrong about those confidential dollars and though my intention was laudable, there's something naive about my business methods.

Still I've worked it out with the Comptroller's book again and it came out right and I'm quite sure that if he'd done what I said about multiplying and dividing, instead of playing with that silly old abacus he'd have found he was getting as much as he ought and anyhow if it's right for those civil servants it must be for the Comptroller.

Tubby and Angus have been arguing about those confidential dollars all evening and Tubby says you can't know about them unless you understand just how the need for jaw works and he'd show us. Well, my dear, he started off with five gallons of brandy, calculating I mean, and did everything they said in the paper and it came out that the Government would owe him sixteen confidential dollars on each gallon and Mr. Lloyd wouldn't like that.

Angus said that perhaps the Table wasn't meant to use with such large quantities as very few nice people drink five gallons at a time, but anyhow, he could see that Tubby's mistake was not using Algebra and he'd show us how to work it out for cigarettes. He said that in Algebra when you didn't know what you wanted to find out you always started with "x" as an unknown quantity and that that would be the duty, and "y" would be the number of cigarettes. He did some frightfully clever equations and it worked out that the Comptroller would have to send us an unknown quantity of tin for nothing and that we should get the square root of a conventional dollar as drawback when we returned the tin.

Tubby said he didn't think that was quite what Mr. Lloyd meant and he must have forgotten the percentage for moisture or something, but I noticed the newspaper had got turned over and I think he'd been dividing by one of the Griffins track times so I said nothing and went to bed.

I do think finance is too frightfully fascinating and people who think of these things like poor Sir William and Mr. Lloyd must be simply infested with brains. Angus says they have a special branch for these things at Scotland Yard but we've got them beat. Your enthralled,

POPSY.

## THE EMDEN'S ATTACK ON PENANG.

[TO THE EDITOR OF THE "HONG KONG DAILY PRESS."]

SIR,—In the very interesting excerpt you published on the 17th account of the torpedo attack on the Emden at Penang on September 23, 1914, the "British cargo boat which we wanted to capture" was the old Glentworth, with whose skipper (Captain Jones) I think that was the name I recall a vivid conversation at Yokohama when the vessel arrived there after the Penang incident.

Captain Jones stated that a Lieutenant boarded his vessel from the Emden in one of the Emden's boats—he was a fledgling Prince, as far as I remember—and asked what cargo they were carrying, etc., etc. The Captain replied: "Oh, the usual general cargo for China." "Well, why are you flying the dangerous goods flag?" countered the Prince. "Oh, we've got some Kerosene on board, that's why!" At that moment the officer received an urgent signal from Emden to return at once, and as he left the ship he said to the Captain: "You're lucky, Captain! To which Captain Jones replied: "Better to be born lucky than rich, Your Ignorance!" As a matter of fact the Glentworth was full up with ammunition for the China Squadron!—Yours, etc.

## BANK OF EAST ASIA.

## BUSINESS INCREASE RECORDED.

## 1930 A PROSPEROUS YEAR.

Notwithstanding the general trade depression, the Chairman of the Bank of East Asia (Hon. Sir Shou-son Chow) reported a good year's working at the twelfth ordinary yearly meeting of the bank, held on Saturday. Increases in all principal lines of business were recorded during the year which resulted in a net profit of \$1,450,423.01.

Besides Sir Shou-son Chow, there were present:—Messrs. Fung Ping Shan, Wong Yun Li Koon Chun, Wong Chiu Son, Chan Ching Shek, P. K. Kwok, Kan Ying Po (Directors), Kwok Siu Lan, W. N. Thomas, Pun Hiu Cho, Li Lan Sang, Li Pak To, K. K. Lee, Li ung, K. K. Wong, Fung Yuk Lum, Fan Shui Ki, Tam Cheong Tsun, Chow Chi Nam, Li Tse Fong, Lui Ming Fong, Kan Tong Po and many other shareholders.

## Chairman's Speech.

In presenting the report and accounts the Chairman said:—

Including the sum of \$47,994.83 brought forward from the previous year, the result of the year's working shows a net profit of \$1,450,423.01, which I think you will agree with me is highly satisfactory.

You will observe from the Balance Sheet before you that there are increases in all our principal lines of business, and in view of the increasing funds we have in hand, both the Head Office and our branches are making steady growth in our loan business, and your Directors are satisfied that they are all in a good and healthy condition.

In spite of the adverse trading conditions in the Colony and the general trade depression throughout the world, our deposits show an increase over that of the previous year which speaks well of the future prospects of our bank.

In the Balance Sheet the Furniture and Fixture Account now stands at the nominal figure of \$1, all the additions made during the year having been taken care of by Charges Account. In future all new furniture and fixture will be dealt with in the same way.

In order to place our bank on a solid foundation, the Directors recommend that a sum of \$500,000 be transferred to General Reserve thus bringing this account to a total of \$2,250,000, or in other words 45 per cent. of our paid-up capital. I am sure you will endorse this sound policy.

The Directors' recommendation of a dividend of 10 per cent. and a bonus of 2 per cent. making a total distribution of 12 per cent. share the same as the previous year.

## Bonus to Staff.

I desire to express to all members of our staff, both here and abroad, our appreciation of their good services which played such an important part in the success of the year's working. In view of the increased cost of living in the Colony and in order to show our appreciation in a practical way, the Directors feel sure that you will agree to their recommendation to pay to the staff a special bonus out of the profit of this year.

I do not think there is anything further that requires any comment, and I would, therefore, propose the adoption of the report and accounts as presented. After this has been duly seconded, I will endeavour to answer any question you may wish to ask.

Mr. Kwok Siu Lan seconded. Carried unanimously. On the proposal of Mr. Pun Hiu Cho, seconded by Mr. Li Lan Sang, Messrs. Porey, Smith, Soth, and Fleming were appointed auditors for the ensuing year, at an increased remuneration of \$2,500 per annum.

The meeting terminated with the announcement by the Chairman that dividend warrants would be ready to-day.

## The Daily Press.

HONG KONG, FEBRUARY 23, 1931.

## LABOUR'S MEDIOCRE RECORD.

THE Labour Government has now been in power since June, 1929. It is supported by the largest party in the House of Commons and, with the sixty Liberal members to help it, on certain conditions, Labour has a comfortable majority. It may be said that the Liberal contingent drives a hard bargain for its continued support, but despite the readiness of Sir John Simon and a small group of Whigs, the Labour Government seems to carry through anything that it really wants. It secured, for example, the second reading of the Trades Dispute Bill, despite the fact that the measure pretty clearly legalises any General Strike on the lines of the attempted revolutionary upheaval of five years ago, when the whole nation set itself to defeat the Trade Union Council and their supporters.

The record of the Labour Government must be a disappointment to their supporters. Unemployment has increased three-fold and Labour has been powerless to check the general economic depression. Other parties admitted that they could do very little, but Labour always claimed that, given a free hand, they would provide work for all. Now we know that they cannot. Doles have been made easier to get, but Labour has done nothing to check unemployment and increase the general standard of living.

The fact is that England has gone on under a Labour Government very much in the same way as it would have done had Mr. BALDWIN been in power. Mr. SNOWDEN scored a big success at The Hague in the matter of War Reparations, but the Naval Conference was not the advance towards disarmament that had been hoped. Substantial progress was made, but any other government would have done at least as well. Of the Round Table Conference the same may be said. Neither efforts nor success crowned its failure—fair progress was made and with that the electorate will have to be satisfied. In the matter of appointments a similar story has to be told. No Labour genius will take India in hand but a typical pro-consul of the governing class. The judicial and diplomatic promotions have been as conventional as the Honours Lists, and Hong Kong did not have the uneasy recruit to Labour, whose name was mentioned, as her Governor.

There is no short and easy way to prosperity for all. The government of the country has to be carried on, and the vast machinery of local and central administration cannot be changed fundamentally and rapidly by the score of gentlemen who compose the Cabinet, and their fifty or so minor Ministers and Under-Secretaries. A nation in this respect like a great liner, whose Captain and Officers can work an infinity of harm, even when they are good, and whose powers for good are limited to keeping to the schedule and maintaining proper discipline and efficiency.

It is easy to understand the impatience of Messrs. MAXTON, KINKWOOD, and the other extremists. They want to see the banks, mines, railways, and assurance companies nationalised, the game laws and capital punishment abolished, the Army, Navy, and Scotland Yard disbanded, and the old laws in Dartmoor set at liberty. They would also "democratise" the public schools and universities, abolish titles, and perhaps readjust the judiciary. But none of these things has happened because there are steady men in the Labour Party, who can see grave objections to any of these courses, the chief of which is that the country has no wish for them. But Labour will not lightly put aside its halo of exceptional virtue in things political. It will continue to make promises, and to declare that Socialism is its policy, and under Socialism all will be well. In spite of vehement protestations the British people only see the usual spectacle of mediocre men doing their best, and no one benefiting, except, perhaps, a small section of trade unionists who are already well provided for. The very ordinary nature of Mr. RAMSAY MACDONALD's Government has been made apparent during the last year and a half.

## THE AMATEUR STAGE IN ENGLAND.

AMATEUR theatricals in Great Britain at the beginning of the present century were largely regarded as something to be good-humouredly tolerated and supported rather than as serious contributions to the development of dramatic art. The plays were confined to a few popular successes, in which the players mostly tried to copy the acting of well-known professionals. During the war not much was done by amateurs locally, and on the regular stage serious drama was somewhat at a discount. Then came the reaction and a revival of interest in the drama among all types and classes.

Amateur dramatic societies were formed in various parts of England, and the young men and women who joined them soon showed that they were more keenly alive to the possibilities of the local stage than their parents had been. They did not seek to copy the amateur and professional stage, but to have a better sense of values, and the demand for something different from the reproduction of popular plays or the copying of the work of popular stars. They appreciate the good work of the professional, but for themselves they cultivate the spirit of adventure. As their productions need not be of costly or lavish character, they can experiment with new forms and the work of new writers whom the professional producer would be inclined to ignore on account of the financial risk.

The results have been most gratifying, but they have been gradual and of such an unspectacular character that they have been largely ignored by the Press and the public. According to a writer in *The Times*, there are to-day nearly three thousand amateur dramatic societies regularly producing plays and pageants. Most of them are affiliated either to the British Drama League or to the Village Drama Society, and they are associated with the widest possible interests, ranging from Women's Institutes, to art circles, and from the clubs of the commercial firms to those of the university colleges. A number of dramatic societies are also members of the National Operatic and Dramatic Association, and the British Drama League will soon branch out in a new direction by announcing a scheme for community drama designed to attract the smaller village societies and clubs associated with elementary schools.

As Religious Drama Society was recently formed, and its director of religious drama has been appointed by the Church of England. He will assist in the choice and production of religious and poetic plays and will link up with local church festivals, celebrations of Saints' days, and dramatic presentations in church and village halls. This is clearly indicative of the general interest shown, and of the new attitude of the Church.

At the present time amateur actors in all parts of the country are busily engaged in the preliminary rounds of their annual Festival of Community Drama, the kind of which takes place in London in April. At this Festival societies compete for a cup presented by Lord HOWARD DE WATKIN, and the growth of the movement may be judged by the increase in entries. In 1927, the first year of the Festival, there were 318 entries. In 1928 there were 170; in 1929 there were 230; and last year there were 307 entries. The final figures are not available for this year, but it is estimated that 300 teams will take part in the competitions now being judged all over the country.

When the Empress of Australia arrived in Hong Kong on February 14, she brought with her a model of the new S.S. Empress of Britain which is now on view at the Canadian Pacific Passenger Office. ## British International Pictures.

I see that the 8 per cent. Cumulative 21 Preference shares of British International Pictures can still be bought for 10s. to return nearly 84 per cent. on the money, writes the City Editor of the *Evening Standard*. I regard them as an attractive high-yielding investment. On last year's profits the dividend on these shares was covered 84 times over, and even the 8 per cent. Ordinary dividend represented only about one-third of the amount available for distribution to the Ordinary shareholders, appreciated to 7s. When the next report appears in August I look for an increase in profits which will still further improve the cover behind the Preference dividend.

## Democratic Party "Gone Well."

Interest in next year's presidential election campaign in the United States and its relation to the prohibition issue was emphasized by Mr. JOSHUA SHOUSE, the chairman of the Democratic National Committee's executive committee. Mr. Shouse declared that the Democratic party must take a definite stand on the prohibition, before the presidential election campaign. One year from June the major parties will nominate their standard bearers and the pre-convention campaign will be started even before this year is out. "The Democrats must decide whether they are to enter the next campaign definitely 'wet' or 'dry,'" said Mr. Shouse. "They must have a recognized leader who will not attempt to dictate the stand the party is to take." By Mr. Shouse pointed out, the states which will send the greatest number of delegates to the presidential nominating convention already favour changes in the prohibition laws. "If that means that the party is going 'wet' then I say that it has already gone 'wet,'" Mr. Shouse said.

## The Brilliant Fallure.

How comes it that the brilliant success of school or university fail so frequently to make good in after life? Is it that their energies are sapped by the effort of excelling before the age of twenty-five? Is it, on the other hand, that the triumphs and glories of school or university life seem so sweet to the adolescent palate that all subsequent attainments are as dust and ashes to the taste? Lord Francis Harvey, who has just died at Brighton at the age of eighty-four, is a classic instance of this dilemma which so often assails the triumphant school or academic career. Lord Francis began life with every possible spoon in his mouth. He belonged to the governing class, and was sent to Eton and Oxford. He won the New-castle and became president of "Pop." And it was as a scholar of Balliol that he went up to Oxford. Here, again, achievement was his in a varied field. He secured a first in Mods, and his second in Greats was balanced by his almost simultaneous election as President of the Union. By the age of twenty-six he was in Parliament with an assured career before him. But Lord Francis became a marked man who never made his mark. After a few uneventful years in the House of Commons he accepted a post as Civil Service Commissioner. He so, other young men the examinations which he had loved so much himself. For the rest he dabbled in the archaeology of Bury St. Edmunds, and took a deep personal interest in the amenities of the gardens of Sussex-square, Brighton, where he lived.

At the Rotary Club tiffin-tomorrow, Lt.-Col. Reginald Morgan, C.B.E., a member of the British Economic Mission, will speak on "Commercial Balance."

The medium used for the competition is a one-act play, and over three hundred authors have been represented in the last four festivals. The present basis of marking is as follows: Acting, thirty per cent.; production, forty per cent.; stage presentation (costing, properties, lighting, costumes, and make-up), ten per cent.; dramatic endeavour (merit of the play), twenty per cent. The play of ideas, well acted and produced in simple settings, has the best chance of success, and the widespread enthusiasm for the Festival is an emphatic reply to the pessimists who so continually deny that the British people really value the drama.

The amateur movement to-day is a living force. Not all those interested and practising in it can take a great part in the actual plays produced, but all of them are learning to appreciate good drama and good acting. In such a matter as that of speech the amateur movement is providing a necessary and wholesome corrective to the Americanisms of the "talkies." In the small towns and villages amateurs are producing local plays which are helping to retain the beauty and the expressiveness of dialect. This is a considerable section of the public is being educated in serious drama, and the effect upon the commercial stage and upon the taste of the whole body of playgoers in Great Britain.

## ★ Local Notes and Events ★

Looking Back 25 Years.  
Perhaps no undertaking of the Government is watched with such eager, almost impatient, interest, as the construction of the railway from Kowloon to Canton, and it is reassuring to learn that a commencement has already been made with the work. The Public Works Department have started on the northern section, between Tai-po and Sunghun, and about 400 coolies are employed in making the embankments, which are necessary in view of the perennial floods. This work is in progress in four or five different places—one squad at Tai-po, two or three at Fanling, and another at Lo-fu. Others are engaged diverting the streams. Although the route has been surveyed some little time, its course through the Kowloon mountains has not become public. However, it is known that a tunnel will have to be cut to connect Shatin with Kowloon. With the exception of this, no great engineering difficulties are likely to be encountered. The Sunghun river will have to be bridged. —*Hong Kong Daily Press*, February 23, 1906.

Looking Back 50 Years.  
In their review of the trade of Newswang for the year 1880 Messrs. Bush Brothers make some interesting observations on the cultivation of the poppy in Shing-king. The import of Indian drug at that port in 1880 was about one-half what it was in 1870. In the former year the total import was 1,162 piculs, value £58,000; as compared with 2,452 chests, value £15,425, in 1870. This enormous falling off in the demand for foreign drug is due, the authorities above quoted say, partly to the higher value ruling for Malaya, but still more to the increased production of the native opium, which is very much cheaper than the imported article. This increase in the production of native opium, despite the exertions of the Provincial Authorities to put it down, —*Hong Kong Daily Press*, February 23, 1931.

SHERIFF LEONE, Feb. 20. The exploits of a West African "Mad Mullah," a Mohammedan named Idara, from French Guinea, have ended with the death for himself and four followers and Lieutenant Holmes, of the Royal West African Frontier Force.

Idara gained influence as a valiant converter of simple natives in Kambia to Islam, in which he was assisted by his ability to perform conjuring tricks. He therefore persuaded the natives to defy the Commissioner. The latter eventually served Idara with a deportation order.

Idara attacked the Commissioner's clerk with a drawn sword and threatened to kill the Commissioner, and for this purpose collected a force armed with swords, cutlasses, and guns.

A platoon of the Frontier Force, led by Kambia, headed by British officers and one N.C.O. Lieutenant Holmes was ambushed, while a visiting sentry post was cut to pieces by the fanatics with swords.

It is understood that Mr. Craigie obtained some satisfaction, firstly, in the direction of a reduction of tonnage, particularly regarding submarines, France, however, claiming a contingent increase in destroyers as compensation; and secondly, in the direction of persuading France to agree to a margin of superiority over Italy of 150,000 tons until 1930—(France claimed a margin of 240,000 tons in the course of the London Conference).

Viennese Plot to Assassinate King Zogu Revealed.

VIENNA, Feb. 21.

Two men were arrested to-day while attempting to assassinate King Zogu of Albania.

Both are Albanians—Azis Cami, an ex-captain of Artillery, and Nok Gjocosi, who belonged to the Albanian Gendarmerie. The would-be assassins, who were wearing evening dress, approached the Royal party as the King was about to enter his motor-car outside the Opera House.

They opened a fusillade at point-blank range.

The King's attendants immediately surrounded His Majesty and returned the fire.

Apparently all carried revolvers in their hip pockets.

The King's Adjutant, Major Topolod, was shot twice in the head and died on the spot.

The Court Minister, M. Libohova, although twice wounded, continued to fire his revolver.

One of the assailants was pursued and caught and roughly treated by the crowd.

He was found to have discharged seven cartridges.

The two assailants are reported to have been subsidised by friends in Albania and Albanian residents in Vienna.

The police visited a number of the latter's homes at night time and made several arrests.

Assailant Former Friend of King Zogu.

VIENNA, Feb. 21.

It is revealed that Azis Cami, one of King Zogu's would-be assassins, was once one of the King's closest friends, but fell out with King Zogu at the time of the latter's fight for leadership in the State, since when he has been one of his bitterest foes.

Both arrested men have confessed that it was their intention to kill King Zogu, declaring that he is a traitor to the Albanian people and responsible for the ruin of the country.

King Zogu apologised to the Austrian Foreign Minister for being an innocent cause of the disturbance.

"Don't Let Us Lecture Other People!"

He added:—"Don't let us spend all our time lecturing to other people. See first if we can get rid of all the slavery in the area under our control, and then set an example to the rest of the world."

The Kowloon Cricket Club brought off a very fine win over the Craigengower Cricket Club in King's Park in the first division of the Cricket League. ## KOWLOON WIN AGAIN.

### Craigengower, the Victims.

Making the trip to the Craigengower ground, Kowloon seconds went away winners by 134 runs. S. Jex (46) and F. E. Skinner (43) started the innings for the Kowloonites and gave them a good start after which the remaining batsmen went on to make 180 for the loss of eight wickets when the innings was declared closed. Souza was the only Craigengower bowler who met with any success. He took five wickets for 25 runs.

Faced with this huge total, the Happy Valley team at no time looked like getting the necessary runs. Overy, the K.C.C. veteran bowler was in deadly form with the ball and returned the splendid analysis of 6 for 17, with the result that the home team were all out for a paltry 46 runs.

## Hong Kong Chinese v. Shanghai.

Shanghai's success in their inter-club soccer tour was carried further on Saturday, when they defeated the Chinese in a fast game providing plenty of thrilling moments for thousands of spectators occupying the stands. A goal scored early in the second half, made all the difference between success and defeat in a test between two strong teams.

The kick-off sent the locals on a raid during which they forced a corner on the right. This was cleared for the Shanghai forwards to get busy, and Lau Mau gave a corner in attempting to clear. A persistent attack was maintained in the local territory, Sinclair and Gash sending in shots which went wide.

It had a run down the wing with the ball and passed to Suen, but Martin sent to touch. An exciting moment followed with Fung missing his kick in front of goal. At the other end Shanghai were awarded a free kick for handling just outside the penalty area and Pau saved from Sinclair.

#### Good Work by Chow.

Chow saved twice in succession and a free kick against his side nearly ended in disaster. Another attack and Chow turned Fung's shot round the post, and he did this again from the flag kick. A fast drive from Suen was stopped net goal.

The Chinese goal had a narrow escape, Pau swerving aside a shot from Graham. A corner kick landed on the side of the net. Fung had bad luck with a shot which struck the right upright and bounced out. Elliott came back with a beauty which skimmed the top bar. A flag kick from Graham nearly ended in the net and half time sounded with Shanghai still attacking. Lau Mau was out of play for the last few minutes owing to an injury to his right leg.

#### Shanghai Scores.

With a blank score, the merciless attack from end to end was continued, and Pote-Hunt was very prominent in feeding the forward line. Elliott received from Sinclair and passed along the goal line. Pau, in the midst of a barricade of players, misjudged and missed the ball, which Graham tapped into the open goal to give Shanghai the lead.

The Chinese visited the other end, a pass from Lee to the right wing being sent to touch by Martin. Lee Wai Tong received a good pass from Fung, but this shot and another from the centre-forward were well managed by Chow. Sinclair broke through and got within a few yards of the goal, but with Pau only to beat he failed by kicking wide.

In their desperate efforts to score, the locals nearly succeeded when Lee sent in to the goalmouth and Chan ran in to finish it, but Martin managed to divert the ball for Vance to clear. Shanghai were again in the picture with Graham cutting in with a shot which Pau saved wonderfully.

Play was now nearing the end and many of the passes to the right wing were lost by the efficient tackling of Martin, who kept this once speedy Athletic winger well in check. In another attack Suen received from Lee, and turning round in a flash, he sent a terrific shot which Chow gathered and returned to the amazement of the spectators.

Widmore and Sinclair sent in good scoring shots which were saved by Pau during a period of extreme pressure by the visitors. The final whistle left Shanghai the winners by the only goal.

Comment.  
Shanghai's victory was in a great measure due to the wonderful work of Chow at goal, the good defence of both backs, and the efficient way in which the half line and some of the forwards fell back to assist when hard pressed. Both Pote-Hunt and Vance played a good game; the former being more prominent in breaking up the Chinese attacks, and he had a good understanding with Gash, who played his usually dealing game. The forwards combined well, but there were a few instances of erratic shooting, but for which the visitors should have scored more goals. The slightly moist ground seemed to favour the visiting team, and they had many moments of anxiety which were relieved by kicking to touch or passing back to goal.

The Chinese right winger was a weak point in the forward line. Lee was well marked throughout and passes from him and his colleagues to the right were often wasted by Chan who was almost

always robbed by Martin. The half backs put in good work, but they were powerless against a barrage of long shots which were continually picked up by the visiting wings who were prominent in the transfer of play. Wong Shui Wa had a hard time with Gash and was successful in beating him when Pote-Hunt was not near to cover. Lau was not quite himself in the second half after his injury.

P.O. Gregory had charge of the game, and the teams were as under—

Shanghai:—Chow, Munro and Martin; Pote-Hunt, Gash and Vance; Elliott, Murphy, Sinclair, Widmore and Graham.  
Chinese:—Pau, Ka Ping; Tam Kwong Pak and Lau Mau; Leung Yin Chan, Wong Shui Wah and Leung Wing Chiu; Chan Kwong Ju, Suen Kam Shun, Fung King Cheung, Lee Wai Tong and Ip Pak Wah.

## DIVISION II.

### CLUB v. RECREIO.

Making the trip to Kowloon, the Club Reserve team were successful in their match with the Club de Recreo whom they beat by three goals to nil.

The Club attacked right from the start and scored their first goal, though Strange very shortly after the start. Continuing to press, they added another before half-time, Jackson being responsible for the goal this time.

With this lead in hand, the Club players were taking things rather their own way in the second half, and despite their many raids to the Club goal, the Portuguese lads could not score. The Club, on the other hand, added a further goal before time was called, Strange sending in a fast goal which beat the Recreo goal-keeper completely.

The teams were—  
Recreio: Figueiredo, Britto, Gaan, Xavier, Lawrence, Barretto, Aas, Ionsalves, C. Figueiredo, Santos, and Gutierrez.  
Club: Fogwell, Stoker, Putoulouf, Sloan, Punccheon, Hines, Smith, Bell, Strange, Jackson and Tavlin.

## NAVY v. ATHLETIC.

This was absolutely a one-sided game, the sailors scoring ten times against the solitary goal the Chinese were able to put in.

Right from the start it was apparent that the Navy were a much superior team and before play had been in progress for very long, Nash opened the scoring with a sharp shot.

The Athletic were penned in and could not clear their lines. Kirby added the second and a few moments later Nash obtained the third. On the one occasion that the Athletic broke away they scored, Bines fumbling Fong King-yui's shot so that it rolled into the net. Kirby got through and scored the fourth. From Branch's centre Morgan headed the fifth.

The second half saw the sailors adding another five goals, those responsible being Potts (2), Nash, Branch and Shirras.

The teams were—  
Navy:—Bines, Cox, Carter, Horner, Shirras, Ashman, Morgan, Potts, Nash, Kirby and Branch.  
Athletic:—Wong Yau Shing, Lau Kam-ming, Tang Kwong-wing, Cheung Lap-lan, Tong King-shing, Tai Kwong-shan, Shui Kin-chai, Lo Hong-chong and Fung King-yui.

## EASTERN v. ARGYLLS.

These teams turned out to give the spectators a fine exhibition of fast and clean play and the game was full of excitement, the soldiers being the winners by the odd goal in three.

The first half was full of thrills and each goal experienced very narrow escapes, though at times the shooting on both sides was poor. On the whole, the Argylls were slightly the better team, their short passing tactics baffling the Eastern's defence more than once, and though the latter held the fort very creditably, the soldiers got through just before half-time when they opened their account through Alexander.

Stung by this reverse, Eastern attacked immediately on resumption but were soon beaten back. Nothing daunted, they came back and were rewarded by a goal when Ng Yur-chen put in the equalizer.

From this point onwards, play was very exciting, both teams trying hard to force ahead. The soldiers pressed hard and a nice movement on the wing gave Davidson possession of the ball and this player slammed the leather into the net to give the Argylls the lead which they maintained till the final whistle went.

The teams were—  
Eastern:—da Silva, Sie-to-Hoi, Lam Kwok-ai, Ng Ying-ki, Lo Yat-ping, Lai Kwong-leung, Lee Bing-tong, Lo Chai-wan, Ng Yur-chen, Babhan and A. N. Other.  
Argylls:—McFarlane, Grey Naughton, Hastie, Grant, McDonald, Reid, Davidson, Grievie, Alexander and McNeill.

## SOUTH CHINA v. KOWLOON.

This game was also very productive of thrills and the teams were very evenly matched, went all out to give the spectators a fine exhibition of football.

The first half was very fast and evenly contested, and after a spell of midfield play, Kowloon broke through and scored when Cotton found the net with a well-placed shot.

The second half was a repetition of the first, and about ten minutes from the resumption, the Chinese got in the equaliser through Wong Kwong-kwan.

This only spurred Kowloon on to greater efforts, and they eventually succeeded in getting ahead, Cotton putting a fine shot past the goal.

From this point onwards, play slackened a bit, the fast pace in the opening beginning to tell on some of the players and the final whistle went with no alteration to the scores.

The teams were—  
South China:—Tooi Kin-hang; Lau Kan, Ah Lee-hui; Cheng Kwok-choi, Yau Wah-hing, Yip Yui-bing; Wong King-chang, Wong Kwong-kwan, Cheuk Shek-kam, Cheng Tai-lam and Kwok Hon-wah.  
Kowloon:—Angus, Guest, Williams, Everett, Gilchrist, Kerr, Eastmann, Whiting, Cotton and Brown.

## INTERPORT SOCCER DINNER.

LARGE GATHERING AT THE  
PENINSULA HOTEL.

LOCAL CAPTAIN HANDS OVER  
THE CUP.

At the interport soccer dinner held at the Peninsula Hotel on Saturday, Mr. R. M. Dyer, C.B.E., President of the Hong Kong Football Association, in welcoming the Shanghai visitors and the guests, said that he had never seen better football than that played by the Shanghai team this year. The game during the afternoon was not an easy one, but Shanghai beat the Chinese all the same. Tables were laid for about a hundred persons, which included Association officials, representatives of the various Clubs, and also of the Navy and Army.

Before presenting the "Hong Kong Telegraph Cup" to the captain of the Shanghai team, Mr. Clark, the local captain, admitted that the better team won and he must therefore congratulate them. Four goals went past him which nearly broke his heart, but he was in hopes that next year Hong Kong would succeed in bringing back the trophy.

The toast of the Shanghai team was proposed by Mr. Dyer and drunk enthusiastically. Mr. Stanley Gash said that he was very pleased to accept the Cup. He had been down twice before and had been lucky in his third effort, and it was a great honour that he was selected to captain the team. He also thanked the hosts for the generous manner in which the team had been received, and paid a tribute to the fine sporting spirit of Hong Kong.

"Polloemen" Captains.

Mr. P. P. J. Wodehouse, C.I.E., one of the Vice-Presidents of the H.K.F.A., regretted the absence of the Hon. Dr. Kewell owing to indisposition, as the latter would have been speaking to the gathering. He said that one thing which pleased him most was the fact that both captains were policemen.

Mr. R. K. Duncan proposed the toast of the guests and in doing so said that they owed a debt of gratitude to the men who do not play the game but are nevertheless ardent spectators and supporters. He thanked the Services for their assistance in the interport trial games, specially mentioning the work of the Navy and Army.

A tribute to the work of Mr. W. E. Hollands, the Honorary Secretary, was paid by Mr. J. Ormiston, and he presented a souvenir for Mrs. Hollands, who had assisted in making badges and in other ways. Representatives of the Navy and Army, and Mr. H. K. Lee were also among the speakers.

Mr. Pole Hunt, who is not returning to Shanghai, was presented with a souvenir by Mr. M. P. Campbell, manager of the team, as a token of esteem for his valuable services on the football field.

## INTER-SERVICES RUGBY.

R.A.F. GO DOWN TO NAVY.

In the Inter-Services rugby match played at Taikooham on Saturday, the Royal Navy beat the R.A.F. by 18 points to nil.

## SHAMEN FOOTBALL LEAGUE.

H.M.S. TARANTULA WINS.

In the last league match of the season H.M.S. Tarantula defeated H.M.S. Moth and thereby secured top place in the league table by one point.

The game was somewhat one-sided as the Tarantula were better in every department. They finished up with the score 4-1 in their favour and on the run of the day's play they thoroughly deserved the victory. They dominated throughout the first half and although the play was from the Moth made a better showing in the second half, there was never at any time any doubt as to the result.

The teams lined up under Mr. P. Young as referee were:—  
Tarantula: Carroll, Perkins, Leeds, Evans, Webb, Tablet, Leout, Cobb, Connors, Mannering, Allen, Tubb.  
Moth: Cleverley, Dewey, Nunn, Swinson, Denstone, Shawyer, Mawer, Biles, Penid, Beckett, Hodgkinson.

## A. & S.H. GYMKHANA.

INTERESTING MILITARY  
SPORT AT KWANTUNG.

LADIES' RACE PROVIDES  
HUMOUR.

There was no want of good cheer at the Kwantung Race Course (Fanning) yesterday when the Argyle and Sutherland Highlanders Gymkhana was held. A large number of military officers attended the meeting and from the fact that the Royal Navy, Army, Air Force, members of the Hong Kong Volunteers, and of the Fanning Hunt and Race Clubs were eligible to compete in the various events, there was no lack of competitors. A large number of the members of the Fanning Hunt were also present.

In all, there were eleven events on the programme and these were varied enough to suit all tastes. There was a very large entry for the bending race which was the curtain raiser. Competitors were required to ride their ponies once down and back through five poles. A number of ladies competed, but the event fell to Mr. Keith Murray in the final, where the winners of five different heats met.

The "Ball and Bucket" race drew even a larger number of entrants and here the ladies were more successful. Competitors were required to collect five polo balls, one at a time, from the top of posts and drop them into a bucket. The thirty competitors for this event were spread over six heats, and of the six persons qualifying for the semi-finals, after leading most of the way Miss P. Harston had the misfortune to drop a polo ball and thus lost her opportunity of appearing in the final. Capt. Stewart qualified to meet Mr. Musson in the final, the latter accounting for Mr. A. J. P. Heard. Mr. Heard actually completed his work first, but his last ball unfortunately missed the bucket. In the final, Mr. Musson won from Captain Stewart after a "neck and neck" race.

The next event, Marketing Race (for ladies only) provided much humour. The conditions of the race read as follows: "A hamper containing a quantity of vegetables, etc., will be available. Each lady is given a basket and a list of vegetables required. Competitors enter to the hamper, fill basket as per list, remount and return. First back with list correct wins."

There was no difficulty with the ladies as far as riding to the hamper and dismounting was concerned, but when it came to filling their baskets with vegetables mentioned on the lists provided it became another question. Although the hamper had plenty of vegetables, etc., the ladies found it difficult to lay their hands on such things as "two Brazilian nuts," or again "two taros" or again "a brinjal." No lady succeeded in filling her hamper with the exact quantity and variety of vegetables required but Mrs. Hewson and Miss Schroeter returned the best results. A spin of the coin was resorted to, to decide the winner and Mrs. Hewson won the test.

There was a "Handy Hunter" trial in which competitors had to take their mounts over a very severe test which was not only horse-ship but also really good animal was required to win. Following this event came a saddling race in which riders had to mount, back, ride to their saddles, saddle up, remount and return. Captain Glegg won this race and Miss P. Scott Harston the only lady competitor, took second place. There were twelve entries in all.

There are always a number of humorous episodes in mule races and the two events on yesterday's card were no exceptions. Mule wrestling is a novelty which few have seen and its inclusion in yesterday's programme lent a decidedly interesting touch to the proceedings.

A V.C. Race brought a very nice programme to a close, when Mrs. Bennett, wife of Major N. C. Bennett, O.B.E., M.C., gave away silver souvenirs to the successful competitors.

The number of candidates entering for the various events was very encouraging and the day's sport would have been an unqualified success but for the fact that the weather was raw and uncompromising. In this connection the provision of a number of large stoves on the grounds of the Race Club helped to some extent, but this was not proof against a slight but steady drizzle, which was noticed during the latter part of the afternoon.

## CANTONESE VISIT.

PROMISING PERFORMANCES.

During the week-end a contingent from the Canton Citizens' Tennis Club paid a visit to the Colony. The party included most of the best players there as well as prominent Government and other officials, viz. Admiral Chan Chak, Mr. Fung Wai, Director of Public Utility, Mr. Muk Ying Tsun, Deputy Commissioner of Police, Mr. Chu Chi Wo, Adjutant of the Board of Construction, Mr. Chang Mi Chuen, Assistant Director of Public Works, Mr. Li Main Cheung, Professor in the Chung San University, Mr. Maau Chai Sing, Professor in the Chung San University.

They had a busy time on the courts, engaging three local clubs on the two days. The Chinese Recreation Club first met them on Saturday afternoon, when in the opening matches Admiral Chan Chak scored the distinction of winning at Singles against Mok Hing Sun and at Doubles (partnered by Mr. Fung Man Wai) against Mr. On Hwa Fam and Mr. Chon Po Min.

Ng Sze Kwong Beaten.  
In the struggle between the regular teams, Ma Chi Huen distinguished himself by beating Ng Sze Kwong, ex-champion of the Colony, at Singles. In all three Singles and three Doubles, were played. At the latter, the Cantonese showed up extremely well and lost by the odd set in all engagements.

Yesterday morning they visited the South China Athletic Association, King's Park, but before play had progressed a heavy down pour of rain forced an abandonment.

At L.R.C.  
Better luck favoured them in the afternoon when they crossed the harbour to meet the Indian Recreation Club team, Admiral Chan Chak was to have met Mr. A. d'Arrell in the opening match, but official duties, demanded the latter's presence elsewhere. Both teams gave a good account of themselves, the latter winning the series of three Singles and three Doubles matches.

The Cantonese team was composed of Li Man Cheung, Ho Chun Nam, Ma Chi Huen, Lau Fook Ling, Leung Tak Kwong, Chen Chi Keung. On their performances against the Chinese and Indian Recreation Clubs, they bid fair to develop into a formidable team, and given more practice on the local courts, they should prove hard to beat.

St. Andrew's Club: R. Rose; I. Rogers, P. Woolley; I. Gittins, M. White, I. Woolley; F. Wong, P. Gittins, M. Woolley, N. Field and E. Landolt.
